

Pool Leak Services of Middle TN is looking for a Repair Specialist.

The Company

Pool Leak Services is the number one name in pool leak detection in Middle Tennessee. We strive for excellence not only in our leak detections and repairs but also with our customer service.

The Position

The repair specialist position is, without question, the most physically demanding job in the company. While the job may be difficult, it is always rewarding when the leak is fixed. As a repair specialist, you are always having to think and try to understand the best way to make a repair. As a repair specialist, you get to be the one who solves the problem by providing a service to a homeowner who just doesn't know how to solve their issue. The repair specialist works not only with their mind, but also with their whole body to uncover the leak and fix the leak, as well as pressure testing the plumbing lines to confirm the location of underground leaks as well as testing their own repairs. Most of the time the repairs require cutting concrete, jack-hammering, digging, and plumbing repair.

The Fit

People who succeed in this role are those with an influential personality, who enjoy hard work and are driven to complete the task at hand. In addition, they are good listeners and can converse well with customers. Knowledge and experience with pools and plumbing is required. We service all of Middle Tennessee and even travel to surrounding areas. We would prefer that you like overtime in the summer and don't mind cold in the winter as we are always outside. We are looking for someone who wants to be a part of the team by helping build the company and possibly be a part of expanding the company to different markets in the future.

The Pay

Full-time time repair specialists earn anywhere between \$40,000 - \$60,000 per year depending on effort and ability. Pay is hourly, but there is no upper limit to what can be earned. Bonus opportunities as well.

If you feel you might be a good fit for our team, please submit your up-to-date resume and a cover letter stating why we should consider you for the role.
